

WIN Learning  
is on a mission  
to help all  
learners  
achieve.

**mystrategic compass** myStrategic Compass is an interactive career planning program providing guidance by using tools for assessment, exploration, research, and goal-setting. myStrategic Compass helps users identify the careers that best suit their interests then provides a framework for the education and path to success.

**readytowork courseware** Ready to Work Courseware offers a series of career-focused modules that assess the level of readiness in academic foundational skills. Main topics include: Applied Mathematics, Reading for Information, and Locating Information.

**readytowork credential** Ready to Work Credential is a program that measures job skills in three main areas: Applied Mathematics, Locating Information, and Reading for Information. The assessments measure the communication, reasoning, and problem-solving skills required for most occupations today.

**softskills courseware** Soft Skills Courseware is a developmental resource to teach employability and social skills in a career context. Main topics include Communicating Effectively, Conveying Professionalism, Promoting Teamwork and Collaboration, and Thinking Critically and Solving Problems.

**essential softskills credential** Essential Soft Skills Credential is a program that measures competency in workplace tasks and behaviors. Test takers will choose the best and worst answer for each question as they view the question from an employers perspective. Successfully passing the assessment will earn the learner or job seeker an Essential Soft Skills Credential.

**college readiness courseware** College Readiness Courseware provides learners with practice and application of concepts addressed by commonly accepted college placement exams. College Readiness Courseware assists learners with foundational skills with five core modules: Pre-Algebra, Algebra, Geometry, Reading, and Writing.

**About WIN Learning** Since 1996, WIN's integrated approach to career readiness has given more than 10 million learners worldwide the tools, confidence, and skills necessary to excel. Our e-learning solutions include academic and employability skills courseware, assessments, and credentials as an important foundation for creating a more effective and efficient system to prepare learners and job seekers for career and life success.
