myStrategic Compass Career Exploration

Career Planning for the Road Ahead

Whether their path leads to the workplace, college, trade school, or military, WIN provides learners with the tools to prepare them for the road ahead.

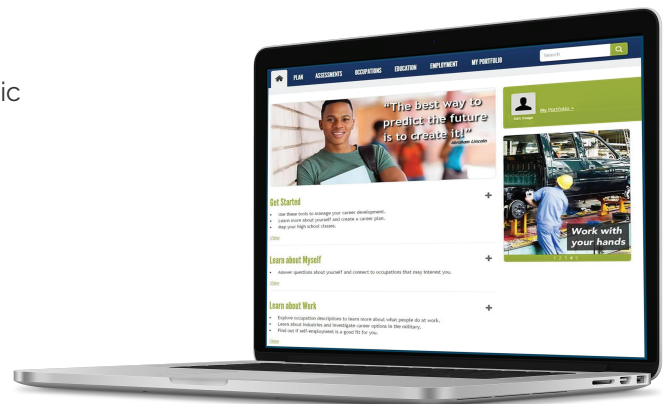

myStrategic Compass is designed for students and parents to help identify the careers that best suit learners' interests, skills, values, and goals. The interactive career planning program lets learners enter their individual preferences to find matching careers aligned to interest, skill, and work. Then, it provides important information about those careers such as the education and skill levels required and economic and labor forecasts. This helps learners understand the academic pathways required to get them to their career choice. By giving learners pertinent real-world information, they remain engaged and motivated through graduation and beyond.

Career Planning and Exploration

myStrategic Compass includes a personalized electronic counseling tool with career interest profilers that examine what is important to a professional in each career. By comparing these interests against various occupations, myStrategic Compass creates a list of career profiles reflecting these personal values. Upon exploration, learners are able to identify the foundational skills required for desired opportunities.

mystrategic compass

With this powerful resource, educators, counselors, and workforce leaders can work together to personalize a plan for each learner's career interest, which is aligned to real opportunities and economic data. Learners can also utilize dynamic tools to budget their life using real-time market data based on their career interest, salary, region, and the local cost of living.

Portfolio

- My Portfolio: Save and organize assessment results, resumes, career information, and work samples in your electronic portfolio
- Personal Learning Plan: System auto-generates plan with saved goals, reflections, and content for student-led conference
- Combined Report of Assessments: Synthesize assessment results in one easy-to-read report

Planning

- Checklists: Track progress on school assignments and activities
- Career Plan: Research career and school options, set goals, and make future plans
- Course Planner: Generate and update course plans
- Application Tracker: Track your school applications, test scores, meeting dates, deadlines, and record the status of applications and transcripts

Assessments

- Career Cluster Inventory: Relate interests to matching career clusters
- IDEAS: Identify interests and match to career clusters and occupations
- Interest Profiler: Relate interests to Holland types and careers
- SKILLS: Correlate skill preferences to occupations
- Work Importance Locator: Identify work needs and correlate with work values to see matching occupations
- Learning Styles Survey: Identify personal learning style and how to enhance study skills
- Employability Skills Survey: Identify skills that need development and set improvement goals
- Assessment Link: Match the results of other assessments to CIS occupations

Schools

- Choosing a School: Learn about different types of schools, admissions tests, admissions processes, and how to select a school
