Work Ready Courseware

Career-focused knowledge and skills to
help learners succeed in life

WIN provides the foundational workplace and academic skills for any career path

The Work Ready Courseware is ideal for measuring competency in foundational skills that focus on the core communication, reasoning, and problem-solving skills required for 21st century opportunities, from entry-level to professional.

The program starts with an initial placement test to identify a learner's training and education needs. Performance on the placement test determines the appropriate starting level in each module. Learners enter the courseware at the appropriate level for their ability and then progress at their own pace through the course. Instructional content is presented along with exercises and checkpoints to measure and demonstrate learning gains, all within a career context. Learners always have the option to review previous levels and rework exercises for additional practice.

At the end of the posttests, the learner can see which questions were answered incorrectly, helping the learner to understand what sections they need to review before retaking the posttest. This allows learners to practice and engage in work they have not yet mastered.

work ready courseware

Certificates of Completion are awarded to the learner after successfully passing the posttest in all three core modules, indicating that the learner is proficient in the skills.

Administrative and progress monitoring reports are available in the WIN Career Readiness System. Instructors and administrators can download and print reports on a learner's activity, eBadges, and certificates.

Work Ready Courseware includes three core academic modules:

work ready
math

work ready
reading

work ready
data

Personalized, career-focused modules ensure all learners are ready for the workplace

Addressing relevance in education, the Work Ready Courseware is aligned to skill levels based on the realities of the current job market and can be accessed at up to five different skill levels. The courseware can be self-paced or delivered by an instructor, and all content addresses core skills required for entry into all 16 national career clusters.

Preparing all learners to be ready to work in a career

By focusing on building the foundational skills needed to be successful with an emphasis on workplace-based scenarios, the Work Ready Courseware helps learners understand the value of these important skills.

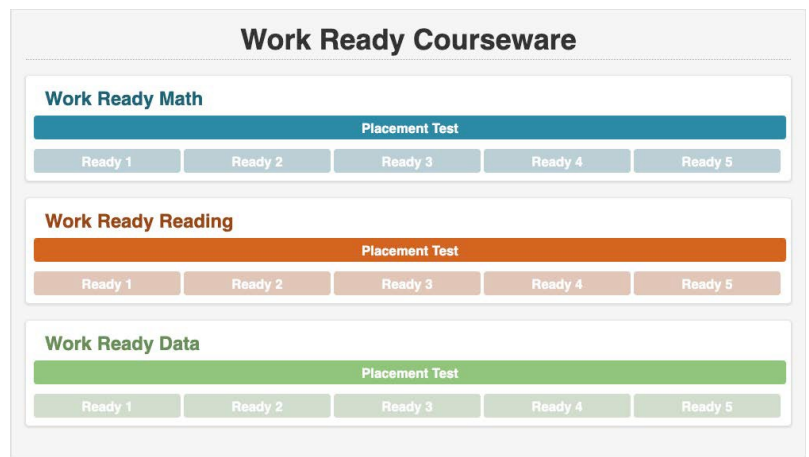

About WIN Learning

Since 1996, WIN's integrated approach to career readiness has given more than 10 million learners worldwide the tools, confidence, and skills necessary to excel. Our e-learning solutions include academic and employability skills courseware, assessments, and credentials as an important foundation for creating a more effective and efficient system to prepare learners and job seekers for career and life success.

Skills Taught in the Work Ready Modules

Work Ready Math builds mathematical reasoning and problem-solving skills to prepare learners to solve real-life workplace problems, such as calculating dimensions, costs, and percentages; reviewing transactions to ensure accuracy; and comparing rates.

Work Ready Reading builds reading comprehension and reasoning skills to prepare learners to utilize documents in the workplace, such as memos, letters, directions, signs, notices, policies, and regulations. Skills include obtaining and applying new vocabulary; following complex instructions; and understanding policies and procedures.

Work Ready Data builds analytical skills to prepare learners to interpret sources of data in the workplace, such as charts, graphs, tables, flowcharts, diagrams, and maps. Skills include identifying trends among variables, recognizing significant and extraneous data points, and drawing conclusions from one or more sources of data.

Did you know...

WIN Learning also provides a valid assessment that results in the Work Ready Credential. The Work Ready assessment is aligned to the academic and workplace skills presented in the Work Ready Courseware.

Contact WIN Learning today and ask about bundling the Work Ready Credential and the Work Ready Courseware to give your learners and job seekers the right tools for success.
